

Are You a Supplier or Contractor Pre-qualified by NipeX JQS system in the Nigerian Upstream Oil and Gas Industry?

SUPPLIER/ CONTRACTOR AWARENESS & SENSITIZATION WORKSHOP ON THE NipeX JOINT QUALIFICATION SYSTEM

The Nigerian Petroleum Exchange (NipeX), a Division of National Petroleum Investment Management Services (NAPIMS), invites all **'Published'** and **'Audited'** suppliers and organizations to a Supplier/ Contractor sensitization and update workshop on NipeX Joint Qualification System (NJQS).

NJQS is the industry's Supplier/Contractor pre-qualification database. It is a key tool used by Buyers in the Industry to identify current and potential Suppliers/Contractors as contract opportunities arise.

The system facilitates collation and tracking of information on all Suppliers/Contractors. It also form the basis for invitation to tender for contracts based on the proven capabilities, experience and specialization of Suppliers as well as enhance implementation of Nigerian Content Act.

Please note that as at 1st January 2010 only contractors who have been duly pre-qualified into the NJQS can do upstream contracts in the industry.

Workshop Objective:

The key objective of the workshop is to sensitize, update and provide a common forum for suppliers, contractors and other oil and gas industry stakeholders to understand the improvements to the pre-qualification process in the NJQS database and their roles in the new contracting process especially in utilizing the performance feedback tool. The workshop will hold as follows.
